Key Features

Dual Lidar, Precise Perception More Reliable, More Secure

- Dual-Lidar system provides PuduBot 2 the ability of 360 degree sensing, with environmental features in full view
- The upper lidar is responsible for distance detection, with an effective obstacle avoidance capability within 0.8m (at a load of 40kg and 1.2m/s travel speed)
- The lower lidar is responsible for ground detection with the shortest detectable height of **8cm**

Key Features

PUDU SLAM

Simplified Deployment , Greater Adaptability

- Fusing laser and visual positioning & navigation technology
- Support Lidar SLAM, Vision SLAM, or Fusion (Lidar + Vision)
- Marker-less deployment, reducing 75% deployment time without redecoration of ceiling
- Comfortable operation even in high ceiling environment (up to 20 meters)

Key Features

High Performance LFP Battery

- Extended battery duration
- Operates up to 24h on a 3 hour charge
- 6X longer battery lifetime
- Enhanced safety and reliability

Automatic Charging

- Compatible with Pudu Charging Pile
- Automatic recharge at set time or when battery level is lower than set threshold

Contact-free Delivery

The COVID-19 profoundly changes our way of life and production and lots of restaurants have offered contact-free delivery to guarantee the safe transfer of food nowadays. PuduBot 2 supports pager function and receives remote operation commands. In different use scenarios PuduBot 2 can receive demands from the pagers and collects the dishes or items automatically, reducing contagion risk between people while boosting delivery efficiency.

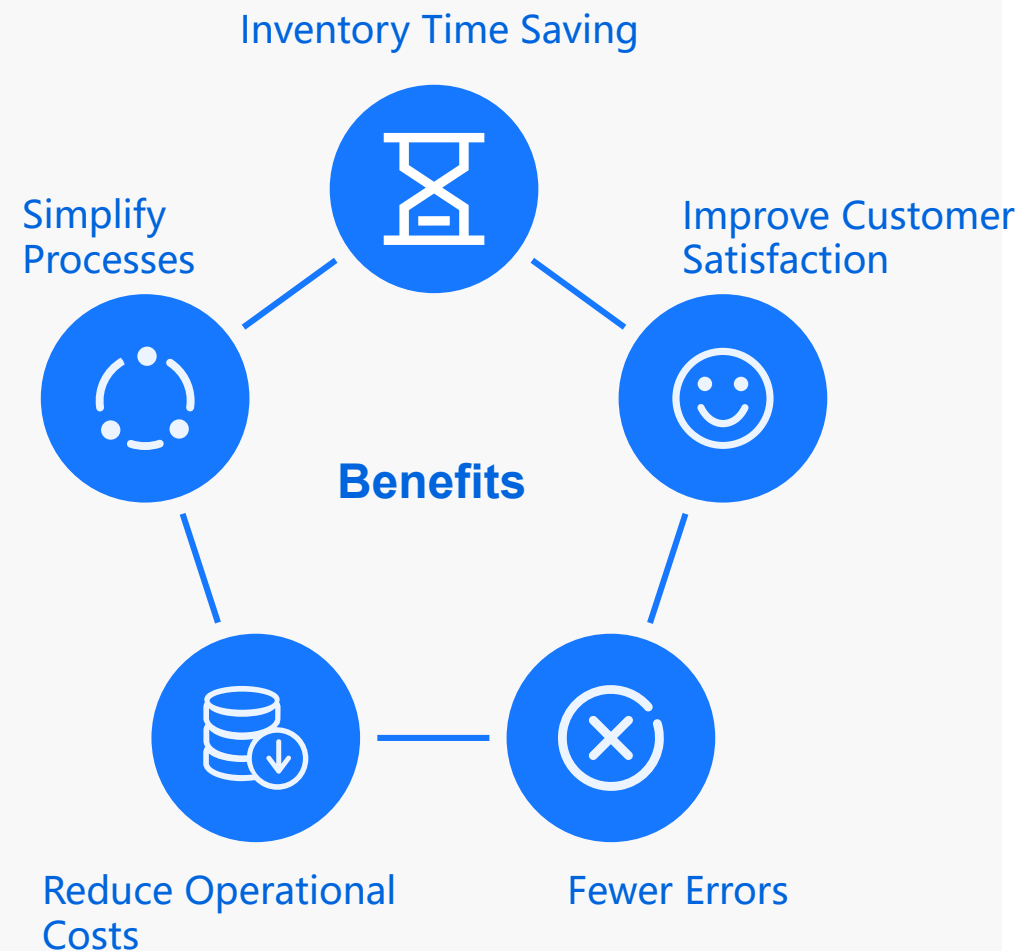

Product Values

Keep up with Trend of Restaurant Automation

Restaurant Automation is the use of automated or robotic technology to complete tasks throughout the restaurant and facility in order to simplify ordering, meals preparing, food delivery and bill payment.

Embedded in strong foundations and in-depth understanding of catering industry, PuduBot 2 possesses the significant features to streamline the food delivery services. And the powerful multi-robot dispatch system distinctly cuts down on the human labor required to stay up and table running.

Product Values

Mitigate Labor Shortage

The pandemic has been hugely devastative to the labor market and fundamentally altered the industries and locations where would-be employees want to work. Employers are struggling in looking for and retaining qualified staffs.

Deploying robots to replace the 4-D jobs (Dull, Duplicate, Dirty and Dangerous) is trendy and will become ubiquitous in future. With the help of robots, employees may focus more on the high-value work and have a better work environment, which results in better work experience and satisfaction.

Product Values

Revolutionize Customer Experience

Commercial robots are being successfully integrated into different hospitality organizations or retail stores to improve customer experience.

Streamlining underlying processes

Reducing friction to create the sense of seamlessness and delight

Boosting customer experience by re-allocating more humans into front-facing roles

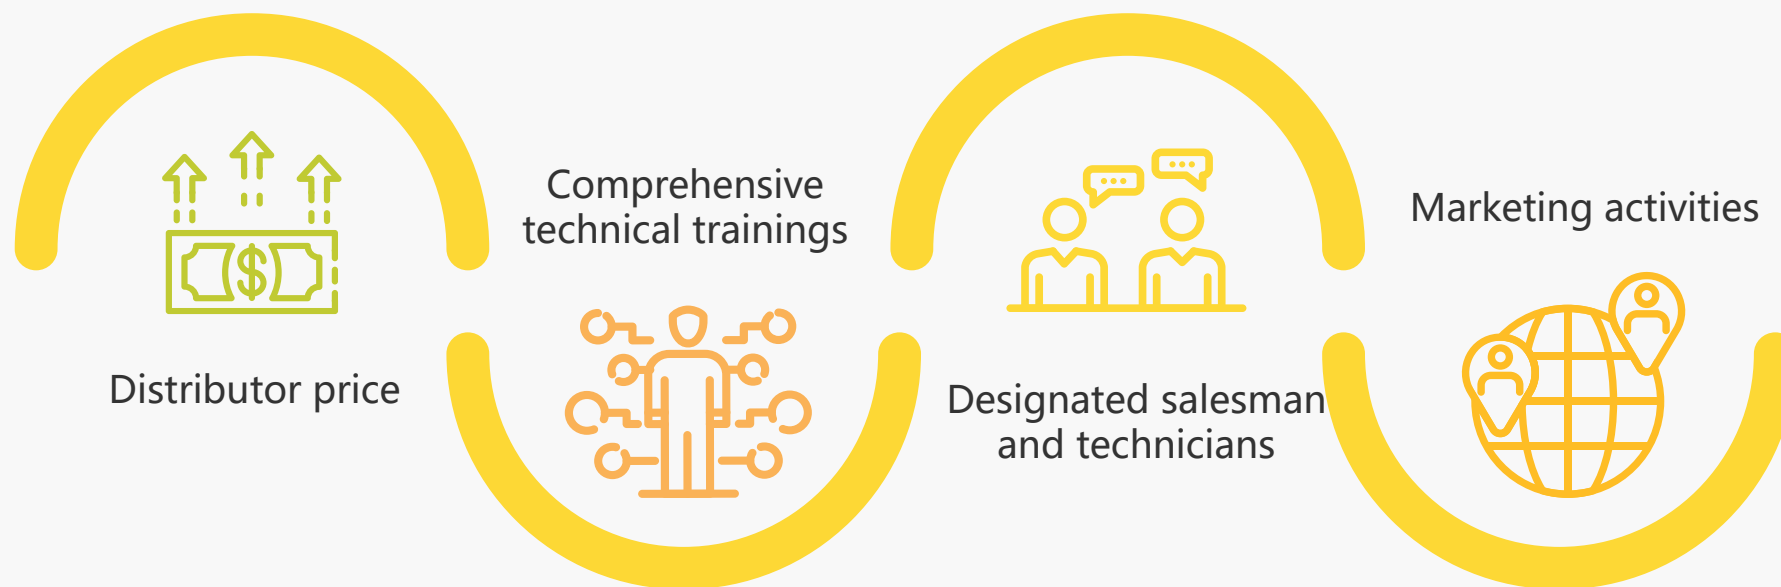

Enhancing customer journey by providing innovative experience
